Dear Sir

Re: Proposal to run a Pilot Programme to support learning at school level

With reference to your proposal to the Western Cape Education Department on 23 August 2013 to assist learners at identified schools to improve their results by developing their learning skills please be informed that the Head of Education has agreed in principle that a pilot programme may be conducted at eight (8) WCED schools (MOD Centres) in 2014.

As per our discussion, the pilot programme will be run after school hours at the identified MOD centres. The WCED will identify these centres in consultation with you.

The WCED looks forward to the partnership and will study the impact of the programme to ascertain the value that can be added for future reference.

We look forward to working with you.

Yours sincerely

L R ABRAHAMS
